SUBJECT INDEX

A

Adamantoblastoma, recurrent, *626*
Adenocarcinoma of gingiva infiltrating mandible and metastasizing to regional lymph node, *191*
of palate, *278*
Aids to anesthesia, *455*
Airways in anesthesia, *470*
Albers-Schönberg disease, *637*
Ameloblastoma, extensive, *555*
Analysis of mechanics of periodontal membrane, *675*
Anemias, deficiency, *422*
Anesthesia, aids to, *455*
Anesthetic, local, solutions of increased strength, clinical evaluation of, *307*
solution concentrations, *465*
Ankylosis of jaw, *244*
Anti-infectious properties of saliva, *659*
Apertognathia and prognathism corrected by bilateral rhomboid osteotomy, *252*
Appliance, partial, stress-breaker type with obturator attached, for correction of cleft palate, *377*
Appliances for external fixation of mandible and cranial fixation of maxilla, *111*
Army Institute of Pathology, case reports from, *189*
Arrest of hemorrhage in two hemophiliacs following dental extractions, *697*
Artificial restoration, surgical preparations of mouth for, *511*

B

Bacilli, fusiform, and Vincent's spirilla in infections of impacted molars, *302*
Bacterial endocarditis, subacute, and dental procedures, *55*
Biologic effects, physiologic action and, of B vitamin fractions, *428*
Bird-cage traction, fracture of middle third of face treated with, *230*
Bone clamp, peripheral, further uses for, *607*
necrosis, osteomyelitis and, *237*
Bones and teeth, effect of experimental chronic fluorine intoxication on, *700*
Brain abscess, leptomeningitis and, after tooth extraction, *129*
metastatic, after tooth extraction, *135*
resulting from direct spread through cranium, after tooth extraction, *142*
subdural empyema and, after tooth extraction, *120*
Buccal mucosa, carcinoma of, *547*

C

Calculus, salivary, in submaxillary region, *327*
Cancer of oral mucosa and circumoral areas, *730*
Carcinoma, epidermoid, of alveolar ridge with radionecrosis of mandible, *557*
of buccal mucosa, *547*
of cheek, large, *284*
of mandible, *281*
of tongue, *633*
spindle-cell, of lip, *189*
Case reports, *113*, *377*, *744*
from Army Institute of Pathology, *189*
miscellaneous, from Massachusetts General Hospital, *619*
Cases of benign and malignant lesions of oral cavity, from Ellis Fischel State Cancer Hospital, symposium on, *541*
Cavernous sinus thrombosis after tooth extraction, *145*
Cavitation, extensive, in mandible, simulating a cyst, 113
Central nervous system and meninges, fatal infections of, after tooth extraction, *117*
Changes in oral mucosa accompanying acute pantothenic acid deficiency in young rats, *406*
Cheek, large carcinoma of, *284*
mixed tumor of, *276*
Chemotherapy in oral surgery, *720*
Chewing leaves of poison ivy, stomatitis due to, *695*
unilateral lacrimation associated with, *692*
Chronic desquamative gingivitis, *1*
Circumoral areas, oral mucosa and, cancer of, *730*
Clamp fixation, internal, fractures at angle of jaw treated by, *206*
peripheral bone, further uses for, *607*
Classification of cysts of jaws, *370*
Cleft palate, correction of, using stress-breaker type partial appliance with obturator attached, *377*
prosthesis, *740*
Clinic of Dental Department of Massachusetts General Hospital and Department of Oral Surgery of Harvard School of Dental Medicine, Volume V, *575*
of Massachusetts General Hospital and Harvard School of Dental Medicine, Volume IV, *197*
Clinical evaluation of local anesthetic solutions of increased strength, *307*
nutrition, fundamental basis of, applied to practice of dental medicine, *437*
Comparative roentgenographic and histologic study of human mandibles, *383*
Complex odontoma, *447*
Condyle, mandibular, functional disturbances following fractures of, and their treatment, *575*
hyperostosis of, *597*
of jaw, fractures of, *220*
Condylectomy, bilateral, *244*
Connective tissue tumors, *737*
Cranial fixation of maxilla, external fixation of mandible and, appliances for, *111*

Cyst, dentigerous, *267*
of mandible, *624*
extensive cavitation in mandible simulating, *113*
globulomaxillary, *622*
maxillary, *620*
Cysts of jaws, classification of, *370*

D

Deciduous teeth, prolonged retention of, *500*
Deficiency anemias, 422
panthothenic acid, acute, in young rats, changes in oral mucosa accompanying, *406*
Deformities of jaws, *248*
Dental extractions, arrest of hemorrhage in two hemophiliacs following, *697*
medicine, practice of, fundamental basis of clinical nutrition applied to, *437*
office, external skeletal fixation in, *486*
procedures, leucemia and, *329*
subacute bacterial endocarditis and, *55*
Dentigerous cyst, *267*
Dermoid, sublingual, two cases of, and cases of protrusion of mandible, *666*
Desquamative gingivitis, chronic, *1*
Diabetes mellitus in gingival symptom complexes, *474*
Diseases, oral, psychosomatic mechanisms in, *440*
Dynamics of wound healing following elimination of gingival pockets, *40*

E

Ellis Fischel State Cancer Hospital number, II, *541-574*
Endocarditis, subacute bacterial, and dental procedures, *55*
Endodontal pathosis, prevention of, *725*
Eosinophilic granuloma, *89*
Ependymitis, suppurative encephalitis and, after tooth extraction, *132*
Epidermoid carcinoma of alveolar ridge with radionecrosis of mandible, *557*
Epithelial tumors, *736*
Erythrocyte maturation factor, anemia due to deficiency of, *422*
Evaluation, clinical, of local anesthetic solutions of increased strength, *307*
Ewing's tumor of mandible, *544*
Experimental chronic fluorine intoxication, effect of, on bones and teeth, *700*
External fixation of mandible and cranial fixation of maxilla, appliances for, *111*
skeletal, in dental office, *486*
Extraction and impaction, comparison of sulfathiazole with sulfamerazine in, *305*
dental, arrest of hemorrhage in two hemophiliacs following, *697*
of teeth, principles concerning, *298*
tooth, fatal infections of central nervous system and meninges after, *117*

F

Face, middle third of, fractures of, *226*
Fatal infections of central nervous system and meninges after tooth extraction, *117*
Fibroma, ossifying, of mandible, *270*
Fixation, clamp, internal, fractures at angle of jaw treated by, *206*
cranial, of maxilla, external fixation of mandible and, appliances for, *111*
Fixation—Cont'd
external, of mandible and cranial fixation of maxilla, appliances for, *111*
skeletal, in dental office, *486*
of pathologic fractures of mandible, *492*
skeletal, of fractures, open reduction vs., *519*
Fixed and removable splints, use of, in practice of periodontia, *354*
Fluorine intoxication, chronic, experimental, effect of, on bones and teeth, *700*
Fracture of mandibular condyle, functional disturbances following, and their treatment, *575*
of zygoma, *229*
of zygomatic arch, *227*
Fractures at angle of jaw, treated by internal wiring and by internal clamp fixation, *206*
bilateral, of mandible, *619*
of condyle of jaw, *220*
of middle third of face, *226*
open reduction vs. skeletal fixation, *519*
pathologic, of mandible, fixation of, *492*
Functional disturbances following fracture of mandibular condyle, and their treatment, *575*
Fundamental basis of clinical nutrition applied to practice of dental medicine, *437*
Fusiform bacilli and Vincent's spirilla in infections of impacted molars, *302*
Fusospirochetal and streptococcal infections, treatment of, by topical application of penicillin, *690*
organisms, pathogenicity of, in gingival symptom complexes, *479*
stomatitis, hematologic findings in, *681*

G

Giant-cell tumor, central, *629*
Gingiva, adenocarcinoma of, infiltrating mandible and metastasizing to regional lymph node, *191*
Gingival pockets, dynamics of wound healing following elimination of, *40*
symptom complexes, *473*
Gingivitis, chronic desquamative, *1*
Granuloma, eosinophilic, *89*

H

Harvard School of Dental Medicine, clinic of Massachusetts General Hospital and, Volume IV, *197*
Department of Oral Surgery, clinic of Dental Department of Massachusetts General Hospital and, Volume V, *575*
Hemangioma of lip, *559*
Hematologic findings in fusospirochetal stomatitis, *681*
Hemophiliacs, arrest of hemorrhage in, following dental extractions, *697*
Hemorrhage, arrest of, in two hemophiliacs following dental extractions, *697*
Histologic study, comparative roentgenographic and, of human mandibles, *383*
Human mandibles, comparative roentgenographic and histologic study of, *383*
Hyperostosis of mandibular condyle, *597*

I

Impacted molars, infections of, fusiform bacilli and Vincent's spirilla in, *302*
Impaction, extraction and, comparison of sulfathiazole with sulfamerazine in, *305*
Infections, fatal, of central nervous system and meninges after tooth extraction, *117*
fusospirochetal and streptococcal, treatment of, by topical application of penicillin, *690*
Infectious mononucleosis and acute leucemias in gingival symptom complexes, *476*
Instrument holder, thimble, *375*
Internal wiring, fracture at angle of jaw treated by, *206*
Iron deficiency, anemias due to, *425*

J

Jaw, angle of, three fractures at, *206*
ankylosis of, *244*
condyle of, fractures of, *220*
Jaws, cysts of, classification of, *370*
deformities of, *248*
human, roentgenographic and histologic study of, *388*
in Paget's disease (osteitis deformans), with special reference to osteoporosis circumscripta cranii, *104*
tumors of mouth and, *260*

L

Lacrimation, unilateral, associated with chewing, *692*
Lateral sinus thrombosis, after tooth extraction, *158*
Leptomeningitis after tooth extraction, *127*
and brain abscess after tooth extraction, *129*
Lesion, mandibular, as first evidence of multiple myeloma, *685*
Lesions of lower lip, *560*
of oral cavity, benign and malignant, symposium on nineteen cases of, from Ellis Fischel State Cancer Hospital, *541*
Leucemia, acute myelogenous, oral manifestations of, *324*
and dental procedures, *329*
Leucemias, acute, infectious mononucleosis and, in gingival symptom complexes, *476*
Leucoplakia and papilloma of tongue, *630*
Lichen planus in gingival symptom complexes, *483*
Lip, hemangioma of, *559*
lower, lesions of, *560*
spindle-cell carcinoma of, *189*
Local anesthesia, *455*
anesthetic solutions of increased strength, clinical evaluation of, *307*
Localization of supernumerary teeth, roentgenographic methods of, *533*
Luxation, complete, of maxillary anterior teeth, *744*

M

Mandible, extensive cavitation in, simulating a cyst, *113*
Marginal periodontitis, *93*
Massachusetts General Hospital number, IV, *197-288*
V, *575-636*
Mechanics of periodontal membrane, analysis of, *675*
Mechanisms, psychosomatic, in oral diseases, *440*
Medicine, dental, practice of, fundamental basis of clinical nutrition applied to, *437*
Meninges and central nervous system, fatal infections of, after tooth extraction, *117*
Metastatic brain abscess after tooth extraction, *135*
Middle third of face, fractures of, *226*
Mononucleosis, infectious, acute leucemias and, in gingival symptom complexes, *476*
Mouth and jaws, tumors of, *260*
surgical preparation of, for artificial restoration, *511*
teratoid parasites of, *650*
Multiple myeloma, mandibular lesion as first evidence of, *685*
Myelitis, transverse, after tooth extraction, *162*
Myelogenous leucemia, acute, oral manifestations of, *324*
Myeloma, multiple, mandibular lesion as first evidence of, *685*
plasma-cell, with involvement of gum of mandible, *541*

N

Nervous system, central, and meninges, fatal infections of, after tooth extraction, *117*
New York University number, *307-328*
Northwestern University number, *289-306*
Nutrition, clinical, fundamental basis of, applied to practice of dental medicine, *437*

O

Obturator, hollow-ball, for cleft palate, *740*
Odontectomy, new method of space obliteration after, *198*
Odontoma, *627*
complex, *447*
Office, dental, external skeletal fixation of, *486*
Open reduction vs. skeletal fixation of fractures, *519*
Operative surgical procedures in preparation of mouth for artificial restoration, *516*
Oral cavity, benign and malignant lesions of, symposium on nineteen cases of, from Ellis Fischel State Cancer Hospital, *541*
diseases, psychomatic mechanisms in, *440*
manifestations of acute myelogenous leucemia, *324*
mucosa and circumoral areas, cancer of, *730*
changes in, accompanying acute pantothenic acid deficiency in young rats, *406*
surgery, chemotherapy in, *720*
Ossifying fibroma of mandible, *270*
Osteitis deformans (Paget's disease), jaws in, with special reference to osteoporosis circumscripta cranii, *104*
Osteogenic sarcoma of mandible, *289*
Osteomyelitis, *235*
and bone necrosis, *237*
of ascending ramus, *238*
tuberculous, of mandible and pulmonary tuberculosis, *242*

Osteoporosis circumscripta cranii, jaws in Paget's disease (osteitis deformans), with special reference to, *104*
Osteotomy, bilateral rhomboid, apertognathia and prognathism corrected by, *252*

P

Paget's disease of mandible, *265*
(osteitis deformans), jaws in, with special reference to osteoporosis circumscripta cranii, *104*
Palate, adenocarcinoma of, *278*
cleft, prosthesis for, *740*
Pan-American Odontological Association, meeting of, *696*
Pantothenic acid deficiency, acute, in young rats, changes in oral mucosa accompanying, *406*
Papilloma, leucoplakia and, of tongue, *630*
Parasites, teratoid, of mouth, *650*
Parotid swelling, unilateral, *286*
Partial denture, removable, prosthetic restoration with, after surgical removal of tumor of right maxillary antrum, *504*
Pathogenicity of fusospirochetal organisms in gingival symptom complexes, *479*
Pathologic fractures of mandible, fixation of, 492
Pathosis, endodontal, prevention of, *725*
Pemphigus in gingival symptom complexes, *483*
Penicillin, topical application of, treatment of fusospirochetal and streptococcal infections by, *690*
Periodontal membrane, analysis of mechanics of, *675*
pockets, choice of treatment for, *34*
Periodontia number, *1-54*
practice of, use of fixed and removable splints in, *354*
Periodontitis, marginal, *93*
Peripheral bone clamp, further uses for, *607*
Physiologic action and biologic effects of B vitamin fractions, *428*
Plasma-cell myeloma with involvement of gum of mandible, *541*
Pockets, gingival, dynamics of wound healing following elimination of, *40*
periodontal, choice of treatment for, *34*
Poison ivy, stomatitis due to chewing leaves of, *695*
Preanesthesia sedation, *470*
Pregnancy tumors, multiple, of mouth and jaws, *260*
Prevention of endodontal pathosis, *725*
Principles concerning extraction of teeth, *298*
Prognathism, apertognathia and, corrected by bilateral rhomboid osteotomy, *252*
Prolonged retention of deciduous teeth, *500*
Prosthesis, cleft palate, *740*
Prosthetic restoration with removable partial denture after surgical removal of tumor of right maxillary antrum, *504*
Protrusion of mandible, case of, and two cases of sublingual dermoid, *666*
Psychosomatic mechanisms in oral diseases, *440*
Purpura in gingival symptom complexes, *481*

R

Radionecrosis of mandible, epidermoid carcinoma of alveolar ridge with, *557*
Ramus, ascending, osteomyelitis of, *238*
Removable partial denture, prosthetic restoration with, after surgical removal of tumor of right maxillary antrum, *504*
splints, fixed and, use of, in practice of periodontia, *354*
Restoration, artificial, surgical preparation of mouth for, *511*
prosthetic, with removable partial denture after surgical removal of tumor of right maxillary antrum, *504*
Retention, prolonged, of deciduous teeth, *500*
Roentgenographic and histologic study, comparative, of human mandibles, *383*
methods of localization of supernumerary teeth, *533*

S

Saliva, anti-infectious properties of, *659*
Salivary calculus in submaxillary region, *327*
gland tumors, *551*
Sarcoma, osteogenic, of mandible, *289*
Sinus thrombosis, cavernous, after tooth extraction, *145*
lateral, after tooth extraction, *158*
Skeletal fixation, external, in dental office, *486*
of fractures, open reduction vs., *519*
Sorrin acrylic splint, *360*
Space obliteration after odontectomy, new method of, *198*
Spindle-cell carcinoma of lip, *189*
Splint, Sorrin acrylic, *360*
Splints, fixed and removable, use of, in practice of periodontia, *354*
Stomatitis due to chewing leaves of poison ivy, *695*
fusospirochetal, hematologic findings in, *681*
Streptococcal and fusospirochetal infections, treatment of, by topical application of penicillin, *690*
Stress-breaker type partial appliance with obturator attached, correction of cleft palate using, *377*
Subacute bacterial endocarditis and dental procedures, *55*
Subdural empyema after tooth extractions, *118*
and brain abscess after tooth extraction, *120*
Sublingual dermoid, two cases of, and case of protrusion of mandible, *666*
Submaxillary region, salivary calculus in, *327*
Sulfamerazine, comparison of sulfathiazole with, in extraction and impaction, *305*
Sulfathiazole, comparison of, with sulfamerazine, in extraction and impaction, *305*
Supernumerary teeth, roentgenographic methods of localization of, *533*
Suppurative encephalitis and ependymitis after tooth extraction, *132*
Surgical preparation of mouth for artificial restoration, *511*
removal of tumor of right maxillary antrum, prosthetic restoration after, with removable partial denture, *504*

Swelling, unilateral parotid, *286*
Symposium on nineteen cases of benign and malignant lesions of oral cavity, from Ellis Fischel State Cancer Hospital, *541*
Symptom complexes, gingival, *473*
Syphilis in gingival symptom complexes, *475*

T

Technique for fixation of pathologic fractures of mandible, *492*
Teeth, anterior, maxillary, complete luxation of, *744*
bones and, effect of experimental chronic fluorine intoxication on, *700*
deciduous, prolonged retention of, *500*
extraction of, principles concerning, *298*
supernumerary, roentgenographic methods of localization of, *533*
Teratoid parasites of mouth, *650*
Thimble instrument holder, *375*
Tongue, carcinoma of, *633*
leucoplakia and papilloma of, *630*
Topical anesthesia, *467*
Transverse myelitis after tooth extraction, *162*
